Subject: REALTOR Priority - HB 211

Dear Representative LaTourette,

As a REALTOR and member of the Ohio REALTORS I am asking today for your support of House Bill 211 - our top legislative priority for 2018. House Bill 211 proposes much needed consumer protections in the home buying process.

Home inspectors remain the only unlicensed person in the home buying process. Their inspection report often serves as the final say in what is undoubtedly the largest financial investment a consumer will make in their lifetime. House Bill 211 simply establishes basic, common-sense standards for education and licensing of inspectors. More importantly, it provides multiple avenues for existing inspectors to continue their businesses operations.

At least 30 states have some form of home inspector licensing or registration requirements, including Indiana, Kentucky, Pennsylvania, and West Virginia. Now is the time for Ohio to act to protect home buyers in our state.

We ask for your SUPPORT of House Bill 211.

Sincerely,

Subject: Request for Co-Sponsorship – Paid Family and Medical Leave

Ohio House of Representatives

MEMORANDUM

TO: All House Members
FROM: Representative Janine Boyd and Representative Kristin Boggs
DATE: February 5, 2018
RE: Request for Co-Sponsorship – Paid Family and Medical Leave

We will soon introduce legislation to create the Ohio Family and Medical Leave Insurance Program. Today we chose to send this co-sponsor request as this date marks the 25th anniversary of FMLA (Family Medical Leave Act). This legislation will provide 12 weeks of family and medical leave benefits, which will permit individuals to care for a family member, bond with a new child, or address their own serious health condition.

Out of 178 countries worldwide, the United States is one of three that does not provide paid leave to new mothers. So far five states—California, New Jersey, New York, Hawaii and Rhode Island offer some sort of paid leave to men and women who provide care. The federal Family Medical Leave Act provides 12 weeks of leave for family and medical reasons. This time is unpaid and employers with fewer than 50 employees are exempt, which eliminates a large segment of workers. Ohio should lead on the issue of paid leave to grow our economy and allow working people to put family first.

The program will be under the purview of the Department of Job and Family Services. An individual would receive leave insurance benefits for: a health condition which makes him/her unable to perform their job duties; caring for a new child during after birth, adoption, or foster care placement; caring for a child, parent, or spouse who has a serious health condition; or the individual is taking any other leave as authorized by the federal Family and Medical Leave Act. In order to be eligible for program benefits, an individual must file a claim with ODJFS; must have worked at least 680 hours during the base period; premiums have been withheld and remitted for at least one year; and the leave must be for the above-mentioned purposes.

Once established, program benefits will be paid by assessing premiums on employees. Employers will be required to deduct and withhold premiums from employee's wages. However, an employer may opt to pay the contributions on behalf of employees.

An employee who is covered by an employer policy or collective bargaining agreement that provides the employee with greater leave than that provided by the Family and Medical Leave Act may elect not to participate in the Program in accordance with rules adopted by the Director. An employee who elects to opt out of participating in the Program is not liable for any premium or contribution that would otherwise be due under the Program.

Working people in Ohio should not have to worry about losing their job or falling behind financially just to take care of a sick child or relative; address their own serious health condition; or care for and bond with their newborn child. Ohio cities like Dayton and Cincinnati are leading on leave. By allowing working people to put their family first, we can truly make Ohio a better place to live, work, and raise a family.

If you have any questions or would like to co-sponsor this legislation, please contact Dominic Paretti, at 614-644-5079 or via email at Dominic.Paretti@OhioHouse.Gov and Serena Finlay, 614-466-1896 or via email at Serena.Finlay@OhioHouse.Gov. **The deadline to co-sponsor is Friday, March 9 at 4:00pm.**

TO: ALL HOUSE MEMBERS

FROM: REPRESENTATIVE BRIGID KELLY

DATE: FEBRUARY 20, 2018

RE: CO-SPONSOR REQUEST - ACCESS TO PAY STATEMENTS

I will soon be introducing legislation to guarantee employee access to pay stubs.

A constituent initially brought this issue to the attention of my office after her employer went through a change in ownership and she and her coworkers stopped receiving their regular pay statements and were additionally denied access to viewing them. Upon receiving their W-2's at the beginning of the year, they noticed that their total earnings of the previous year were significantly lower than they have been in past and that their hourly wage had been altered in the change. While the employees were able to recover lost wages through the legal process, their employer was still not required to provide them with pay statements.

Ohio is currently one of nine states that do not require employers to provide a statement detailing an employee's pay information. This legislation would simply make Ohio an access state – meaning employers can comply with the pay statement requirement by providing either a written, printed, or electronic pay stub (or access to the electronic pay stub).

The Fair Labor Standards Act (FLSA) does not require an employer to provide employees with pay stubs, however it does require that employers keep accurate records of hours worked and wages paid to employees. While we are aware that the case in my district is a rare one, we would like to assure all hard working Ohioans are able to see their wages and deductions as needed without taking their cases to court – especially since their employer is already required to keep track of this information.

If you would like to co-sponsor this legislation, view the language or have any questions please do not hesitate to contact myself or my aide, Hope Lane at 614-466-5786 or Hope.Lane@OhioHouse.Gov. The deadline to co-sponsor is Friday, March 2nd at 5:00pm.

Thank you for your consideration.

Dear Representative LaTourette,

As a REALTOR and member of the Ohio REALTORS I am asking today for your support of House Bill 211 - our top legislative priority for 2018. House Bill 211 proposes much needed consumer protections in the home buying process.

Home inspectors remain the only unlicensed person in the home buying process. Their inspection report often serves as the final say in what is undoubtedly the largest financial investment a consumer will make in their lifetime. House Bill 211 simply establishes basic, common-sense standards for education and licensing of inspectors. More importantly, it provides multiple avenues for existing inspectors to continue their businesses operations.

At least 30 states have some form of home inspector licensing or registration requirements, including Indiana, Kentucky, Pennsylvania, and West Virginia. Now is the time for Ohio to act to protect home buyers in our state.

We ask for your SUPPORT of House Bill 211.

Sincerely,

That's the wage, currently at \$2.13 per hour, that federal labor law allows employers to pay tipped workers as long as their total earnings, with tips, add up to at least the \$7.25 hourly minimum wage. If they don't, employers must make up the difference.

Monday: US Supreme Court hears arguments on worker freedom

Janus v. AFSCME decision, whether favorable or not, will have wide-ranging implications for public-sector union employees and education at large

(Washington, D.C.) - On Monday the U.S. Supreme Court hears oral arguments in *Janus v. AFSCME*. The significance of this case cannot be overstated; the decision could potentially restore the freedom of public employees to choose how they want their hard-earned paychecks spent, and might put decisions about voluntary union membership back into the hands of the employees themselves.

According to the Manhattan Institute, the decision can affect 5 million public workers across 22 states including California, Illinois, and New York.

The case results will also have implications for the quality of education we deliver to our children. The teachers unions fight hard to protect mediocrity, even in failing schools, and support policies that keep ineffective teachers in the classroom, a taken-for-granted practice which in turn discourages more quality entrants to the profession.

Union demands for teachers to all behave and comply with fixed rules about how schools are run stifle innovation.

The largest teachers unions in the U.S., the National Education Association and the American Federation of Teachers, are also among the largest political donors of all time, together spending the second most in political donations nationally. Many of the policies and politicians they support, and programs they seek to have implemented prevent children from escaping failing schools and deny parents their due power to determine which education best meets the needs of their children.

Leaders on both sides of the argument will be at the Supreme Court Monday. CER and its leadership will be on site to arrange interviews, and CER Founder & CEO Jeanne Allen will be available for comment. For more, contact Christina Mazzanti at (202) 750-0016 or christina@edreform.com, and for information on location

Subject: PLEASE READ - REALTOR Priority - HB 211

Dear Representative LaTourette,

As a REALTOR and member of the Ohio REALTORS I am asking today for your support of House Bill 211 - our top legislative priority for 2018. House Bill 211 proposes much needed consumer protections in the home buying process.

Home inspectors remain the only unlicensed person in the home buying process. Their inspection report often serves as the final say in what is undoubtedly the largest financial investment a consumer will make in their lifetime. House Bill 211 simply establishes basic, common-sense standards for education and licensing of inspectors. More importantly, it provides multiple avenues for existing inspectors to continue their businesses operations.

At least 30 states have some form of home inspector licensing or registration requirements, including Indiana, Kentucky, Pennsylvania, and West Virginia. Now is the time for Ohio to act to protect home buyers in our state.

We ask for your SUPPORT of House Bill 211.

This is very important!

Sincerely,

Robert Gallmann

Volume #87, Report #38 -- Monday, February 26, 2018

\$2.62 Billion Capital Budget Prioritizes Projects To Address Opiate Addiction, Related Issues

The General Assembly is doubling its prior financial commitments for behavioral and mental health infrastructure in the capital appropriations budget that was introduced Monday.

The bill includes \$2.62 billion in new spending on bricks-and-mortar projects as well as a yet-to-be-disclosed amount of reappropriations for ongoing capital projects approved in prior biennia. The bill covers spending in Fiscal Years 2019-2020.

Companion House and Senate measures (HB 529 & SB 266) allocate \$222 million for health and human services, developmental disabilities, mental health, addiction treatment and women's health initiative facilities over the next two fiscal years.

The fast-tracked budget, which will receive first hearings in both chambers on Tuesday, also includes \$150 million in community projects - \$20 million more than the original funding target - \$600 million for school facilities, \$514 million for local infrastructure projects and \$483 million for public colleges and universities.

The state will issue bonds to fund the spending.

The expanded health and human services support funding was added in response to the growing impact of the opiate epidemic, Senate President Larry Obhof (R-Medina) said.

"So where in the prior budgets you may have seen a few of these pop up, I think it's on the minds of a lot of people and we all recognize that these are some of the more important issues facing the state of Ohio and these are some of the things we chose to prioritize."

Some of the projects set to receive a chunk of the \$222 million are Alvis House and Maryhaven in Columbus, President Obhof said. The respective \$300,000 and \$125,000 projects would add about 260 additional treatment beds for addicts in Franklin County.

"We see these things throughout the state and not just in Franklin County, in Cuyahoga and Hamilton counties but in some of rural areas as well," Sen. Obhof said. "There are number of requests that are being funded from members throughout the state of Ohio for things like that."

Of the total allocation for such infrastructure plans, \$20 million will be provided through competitive grants, which were proposed by Gov. John Kasich. (See Gongwer Ohio Report, February 12, 2018)

So-called community resiliency projects that focus on expanding spaces for youth programming would receive the funding, said Senate Finance Committee Chairman Scott Oelslager (R-N. Canton). The Department of Mental Health and Addiction Services and local groups will likely select the recipients.

"We recognize the need there and listened very carefully to the community," he said of the funding dedicated to combatting the opiate epidemic and related issues.

While that area of the budget saw a boost, overall capital appropriations shrunk by about \$10 million from the last budget, Sen. Obhof said. He's hopeful, however, that it will have a similar reach.

"We think that due to sound fiscal management and the hard work we put in in the main operating budget last year, we do have the capacity for the bonding and the funding of various projects throughout the state that you see in the bill," he told reporters after the legislation was introduced.

Leaders of both parties in each chamber worked together to iron out the details prior to the measure's introduction Monday, making it ripe for quick passage.

President Obhof said he expects a Senate vote on the House version - which will serve as the vehicle for the budget - in the week before spring break, which is set to begin in late March.

Local projects were brought forward by individual members for consideration while community colleges and universities created their own priority funding packages. (See Gongwer Ohio Report, November 22, 2017)

"This capital budget will give the legislature a tremendous opportunity to address several infrastructure and construction projects that will generate a positive return on investment for communities all across the state," Speaker Cliff Rosenberger (R-Clarksville) said in a statement. "I want to commend the members of the legislature and local leaders for their collaboration and commitment to helping improve the lives of so many Ohioans through this legislation."

The capital budget has historically drawn bipartisan support as lawmakers look to support money funneled to projects in their communities. That trend is expected to continue this year.

"As legislators, we review capital budget applications, meet with individuals and organizations and visit project sites. You can't help but become passionate about what we can do to invest in Ohio's infrastructure and improve the community," Senate Minority Leader Kenny Yuko (D-Richmond Heights) said. "Although it's unfortunate that we can't fund every much-needed community project that comes to our attention, I am happy with the progress that will be made through the capital budget."

If the capital bill process follows those of prior years, no major changes will occur during deliberations unless there are problems with the bill. The last several capital budgets passed with few if any amendments once they were introduced.

Cardinal Health Among Drug Distributors Targeted In Latest DeWine Opioid Suit

Attorney General Mike DeWine on Monday announced that he has filed a lawsuit against four drug distributors for their role in the opioid epidemic.

The lawsuit, filed in Madison County Common Pleas Court, alleges that the drug distributors were negligent in over-supplying addictive opioid prescription drugs.

"We believe the evidence will show that these companies ignored their duties as drug distributors to ensure that opioids were not being diverted for improper use. They knew the amount of opioids allowed to flow into Ohio far exceeded what could be consumed for medically-necessary purposes, but they did nothing to stop it," AG Mike DeWine said in a statement.

"And much like the drug manufacturers who continue to fail to do the right thing, these distributors are doing precious little to take responsibility for their actions and help pay for the damage they have caused."

Named in the lawsuit are McKesson Corporation, Cardinal Health and its subsidiaries, AmerisourceBergen Drug Corporation and Miami-Luken, Inc.

Cardinal Health in a statement said it has been cooperating to "alleviate the public health crisis and save lives" through a multi-state effort led by 40 attorneys general and a multi-jurisdictional effort in Cleveland.

"We are extremely disappointed that Attorney General DeWine chose to go outside of these established processes at this critical moment in time to file this unfounded lawsuit," the company said in a statement.

The company went on to say that it cares deeply about the opioid epidemic and that there must be work toward meaningful solutions.

"This is why we launched our Opioid Action Program which augments our substantial efforts to combat opioid abuse and is providing funds and support for take back efforts, Narcan giveaways for first responders, and grants for communities looking to find holistic solutions to this public health issue throughout Ohio," it said.

"Cardinal Health has made a significant investment in state-of-the-art controls to effectively combat the diversion of pain medications from legitimate uses. We believe this kind of effort and investment, and not baseless litigation, is the way to alleviate this problem."

The lawsuit alleges that the companies fueled the opioid epidemic by distributing enough of the drugs to fill more than 11.8 million prescriptions from 2011 to 2016, amounting to dosages that averaged more than 739 million each year.

The drug epidemic has resulted in annual damages in excess of \$1 billion, the lawsuit alleges. Those costs include medical care, treatment for infants born with opioid-related medical conditions; public safety measures; substance abuse prevention; and welfare and social services for the children of addicted parents.

The lawsuit also alleges that more than 7,000 Ohioans have died due to the opioid crisis.

The companies "have supplied and continue to supply quantities of prescription opioids in and around Ohio without taking proper measures based on their actual or constructive knowledge that individuals were consuming opioids for non-medical purposes," the lawsuit reads.

Among the remedies Mr. DeWine is seeking are punitive and compensatory damages.

This marks the second lawsuit the AG has filed against drug companies over the opioid crisis. (See Gongwer Ohio Report, May 31, 2017)

Nearly \$29M In State IT Funding Clears Controlling Board

Controlling Board members Monday approved more funding for state information technology projects after raising questions about performance-based contracts and the state's savings from consolidating services.

The requests from the Department of Administrative Services included one worth nearly \$24.8 million for the state's main IT services delivery line item, which has increased over the years due to the consolidation, DAS Chief Financial Officer Jennifer Leymaster told the board.

The other request, for \$4.4 million, dealt specifically with a pair of projects involving nine agencies, she said.

Rep. Scott Ryan (R-Newark) asked if the state's IT contracts have performance clauses for the timing of delivery or for the accountability of functions.

The request Monday didn't deal with specific contracts, just the appropriation changes needed to cover contract costs, Ms. Leymaster said.

"We'd be happy to see if individual contracts have the type of controls that you're asking about," she said.

Ms. Leymaster told Sen. Charleta B. Tavares (D-Columbus) that the projects are part of a broader optimization project that has saved the state more than \$160 million since its inception.

The board also approved two significant funding requests from the Development Services Agency to support affordable housing after Sen. Bill Coley (R-Liberty Twp.) asked about cost containment measures and access for people with disabilities.

The requests included \$13.6 million for the Ohio Housing Finance Agency to administer the Housing Development Assistance Program, and \$5.5 million for housing assistance programs across the state.

Kelan Craig, director of planning, preservation and development at the Ohio Housing Finance Agency, said the administration has worked to ensure projects are done effectively at low cost.

As for accessibility for people with disabilities, there are specific requirements for projects targeted at seniors and for permanent supportive housing developments, but not for standard affordable housing, he said.

"Let's just watch that and make sure we don't have a problem with that," Sen. Coley said.

A request by the Department of Mental Health and Addiction Services for \$1.1 million to replace the emergency generator at Appalachian Behavioral Healthcare in Athens was approved after Sen. Coley asked about the hospital's involvement in plans to participate in peak demand emergency programs.

Stephen Wilson, legislative liaison for ODMHAS, said the state found it would only save a couple thousand dollars to participate in the utility's peak demand program, while placing strict requirements on hospital staff.

Sen. Coley said the programs can help other facilities, such as industries and schools, when the power goes down.

"Hospitals around the state are finding great benefits to these programs," he said.

In total, the board approved 82 requests for funding.

Other items approved included: (Agenda)

- \$2.9 million - Central State University - for repair and modernization of the Hallie Q. Brown Memorial Library.
- \$11.7 million - Cleveland State University - to contract for an addition project at Fenn Hall.

- \$1.9 million - Cuyahoga Community College - to buy 12.82 acres of real estate in Euclid for the expansion of the Transportation, Distribution and Logistics Academy.
- \$1 million - Adjutant General's Department - for masonry renovation and HVAC work at the Hamilton Readiness Center in Butler County.
- \$4.6 million - DAS - for administration of the Multi-Agency Radio Communication System.
- \$2.3 million - Department of Agriculture - for lab supplies and equipment.
- \$1.1 million - Department of Mental Health & Addiction Services - for emergency generator replacement at Appalachian Behavioral Healthcare in Athens.
- \$1.6 million - Bureau of Motor Vehicles - for federal grants to purchase and install document scanners and update existing computer systems to confirm commercial driver's license applicants provided proof of citizenship or permanent residency.
- \$10.5 million - Facilities Construction Commission - for master facilities plan amendments from Elida Local School District and Bloom-Carroll Local School District.

Adult Charge Stemming From Juvenile Conviction Challenged At High Court

Can a juvenile adjudication be used to satisfy an element of a crime committed as an adult?

Anthony Carnes will argue that it can't in a case the Ohio Supreme Court is set to hear Tuesday.

Mr. Carnes was charged with a third-degree felony offense of weapon-under-disability based on a 1994 juvenile adjudication. He moved to have the charge dismissed, but the trial court denied his motion.

The First District Court of Appeals upheld the trial court's decision. But Mr. Carnes argued that both court erred in their decisions.

"Simply put, juvenile adjudications are not criminal convictions and should not be viewed as such. This conclusion is reinforced by the fact that Ohio's juvenile system uses two different approaches, one mandatory and one discretionary, to transfer its most severe offenders into the adult system, and has a process to include an adult sentence with a juvenile rehabilitation for the next most serious level of offenders," his merit brief reads.

"In line with that approach, this court has prohibited juvenile adjudications from increasing punishment for subsequent adult conduct. Given that framework, it is incongruous for such adjudications to be permitted to turn what would otherwise be lawful conduct into a crime. Thus, a juvenile adjudication should not be deemed to meet an element of an offense charged against an adult."

The Juvenile Law Center and the Buckeye Firearms Association both weighed in on the case on behalf of Mr. Carnes.

"Individuals with Ohio juvenile adjudications do not fit into the long standing prohibition on the possession of firearms by felons because they simply are not felons by definition," the BFA wrote in its amicus brief.

The state, however, argues that a juvenile adjudication cannot be used to enhance a penalty, but it can be used as an element of a crime. The state also contends that if the court were to side with Mr. Carnes it would gut the state's law prohibiting the possession of a weapon under disability.

Under the law, "there are multiple means of being placed under a disability that do not include the right to a jury trial: being a fugitive from justice, being under indictment for a felony offense of violence, being under indictment for a felony drug offense, being drug dependent or in danger of drug dependence, being a chronic alcoholic, and being adjudicated mentally incompetent. Just as is the case with a juvenile adjudication, none of those situations carries a right to a jury trial - state," the state writes.

The Cuyahoga County Prosecutor's Office has also asked the court to affirm the First District ruling.

"Persons who commit violent felony offenses are considered bad risks who should not be allowed to legally possess a firearm. The fact that a person who commits the violent felony offense as a juvenile does not make that person any less of a bad risk," it wrote in an amicus brief.

"But Ohio's weapons disability law recognizes that people can turn their lives around and become law-abiding citizens after committing a single indiscretion or even after committing a series of crimes decades ago. That person can legally possess a firearm after following the appropriate statutory remedy; but until that time, the person should not be able to possess a firearm under Ohio law."

Three district court judges will be involved in the case because Justice Sharron Kennedy, Justice Patrick Fischer and Justice Patrick DeWine have recused themselves.

Justice DeWine concurred in judgement only with the First District's opinion upholding the trial court's decision to deny the motion to dismiss the charge.

The high court is set to hear two other cases Tuesday, it reported:

- In *Ohio Bureau of Workers' Compensation v. Cirino*, it will hear a case involving a Bureau of Workers' compensation beneficiary challenging the electronic payment program because he is charged fees by his bank. The state argues the case must be filed in the Court of Claims.
- A Columbus attorney is facing a six-month stayed suspension for failure to keep and maintain required financial records in the case of *Columbus Bar Association v. Keating*.

Ohio Groups Debate Trump's Short-Term Health Plan Proposal

A Trump administration proposal to expand options for short-term health insurance is designed to give consumers more options in the marketplace without the regulatory burden of current plans.

Opponents say it could lead to more limited coverage and raise premiums for people on standard exchange plans.

The proposal by the federal Centers for Medicare and Medicaid Services, announced last week, would allow short-term, limited-duration health insurance plans to provide coverage for up to 12 months, up from the current maximum of three months.

These plans are not required to meet the federal requirements for individual health insurance, such as providing essential health benefits or coverage for people with pre-existing conditions.

"In a market that is experiencing double-digit rate increases, allowing short-term, limited-duration insurance to cover longer periods gives Americans options and could be the difference between someone getting coverage or going without coverage at all," CMS Administrator Seema Verma said in a statement.

In Ohio, the move will provide more competition in the marketplace for health insurance, said Greg Lawson, research fellow at the Buckeye Institute.

"It's not going to be a perfect fit for everybody, but for those individuals that it works for, this could be something that could work for you, and it would be a cheaper alternative than being forced into the exchange," he said in an interview.

Critics say the change will erode coverage for people who sign up for the short-term plans and drive up premiums for those who need the more comprehensive coverage of Affordable Care Act-compliant plans.

"These short-term plans are likely to be harmful in the long run," said Steven Wagner, executive director of UHCAN Ohio. "Since they may lack meaningful coverage, people may find that their health care costs are not covered or face substantial out of pocket costs. These plans are a step in the wrong direction."
